

# ECSE Graduate Programs

**Professor Partha Dutta**  
**Ms. Leslie Davis**

*August 26, 2019*

# ECSE Grad Program People

## Graduate Program Directors

Prof. Alhussein Abouzied  
GPD (Doctoral)  
Office: JEC 6012  
Email: [abouzeid@ecse.rpi.edu](mailto:abouzeid@ecse.rpi.edu)  
Phone: 518-276-6534

Prof. Partha Dutta  
co-GPD (Master's)  
Office: CII 7231  
Email: [duttap@rpi.edu](mailto:duttap@rpi.edu)  
Phone: 518-276-8277

## Student Services Staff

Leslie Davis  
Sr. Student Services Administrator  
Office: JEC 6003  
Email: [davisl4@rpi.edu](mailto:davisl4@rpi.edu)  
Phone: 518-276-2554

Priscilla Magilligan  
Administrative Secretary  
Office: JEC 6009  
Email: [pris@ecse.rpi.edu](mailto:pris@ecse.rpi.edu)  
Phone 518-276-6225

## What we provide

- Central Location
  - Forms, information, and questions.
- Source of support
  - Point of contact for all matters throughout entire academic career.
  - Foster a supportive, stable, inclusive environment.
- Communication hub
  - Institute and Department policies.

# Agenda

- Graduate Degrees
- Required Paperwork
- TA/RA Expectations
- Registration Requirements
- Mercer Distinguished Lecture Series
- Doctoral Program Overview
- Master's Program Overview

# ECSE Research Areas

<https://www.ecse.rpi.edu/research>

AI and Machine Learning  
Systems

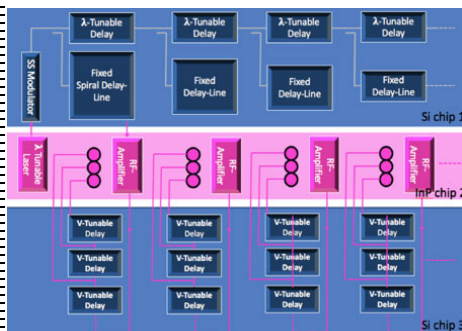

Communications &  
Computer Networking

Computer Hardware Design

Controls, Robotics, and  
Automation

Electronics & Photonics

Imaging Science & Computer Vision

Power Electronics & Power Systems

# World Renowned Scholars

# ECSE Graduate Programs

## Master's Programs

- Master of Engineering (ME)
- Master of Science (MS) with Thesis
- Master of Science (MS) without Thesis
- Co-terminal program (for undergraduate students)

## Doctoral Program

- Doctor of Philosophy (PhD)

Doctoral students may add a Master's degree while completing their PhD requirements.

Master's students may apply to the doctoral program

# Graduate Plan of Study (PoS)

- A Plan of Study (PoS) must be on file with Office of Graduate Education (OGE) for all graduate students.
- Deadline to submit PoS to our office:
  - Master's & Doctoral Students: 11/19/19 (Tuesday before Thanksgiving break).
    - Master's students must also submit MS Worksheet.
  - Co-Terminal Students: 4/22/19 (before classes end for the semester).
- Plans of Study are brought to Priscilla for GPD signature.
- Plans of Study can be revised as needed.

# Required Paperwork

- **Orientation Packet paperwork & deadlines**
  - TA Information Sheet – Monday by Noon
  - Intellectual Property Agreement – 9/9/19
  - Communications in ECSE – 9/9/19
  - Program/Research Advisor – 10/1/19
- **Master's Program Paperwork**
  - Nomination of Master's Thesis Committee\*
  - Record of Master's Thesis & Oral Presentation\*
- **Doctoral Program Paperwork**
  - Doctoral Committee Nomination
  - Record of Candidacy Examination
  - Record of Dissertation Exam\*
- **Other paperwork**

*\*Deadlines for each semester are posted on the Academic Calendar. Reminders will be sent on a semester basis.*

# TA/RA Expectations

- **You are considered an employee of the Institute:**
  - Show up on time.
  - Do the work thoroughly and completely.
  - Communicate with your advisor and/or Student Services.
- **Time Off**
  - RAs: Discuss with your advisor well in advance.
  - TAs: You must be available throughout the semester. You cannot leave for break without checking when the final grading will be done.
- **ECSE TA Best Practices**
  - Tuesday, August 27<sup>th</sup> JEC 6309 at 1:00 p.m. Attendance is required.
    - In JEC, room number 63XX means 6<sup>th</sup> floor, 3<sup>rd</sup> side corridor.
    - 60XX would be in the main corridor.

# Are You Properly Registered?

(Essential if you want to be a  
TA/RA and get paid)

# Why is this important?

- Financial aid cannot be entered into the system until you are registered. You cannot be paid until this is entered.
- Registration deadlines:
  - TAs – Tuesday, 8/27 by Noon.
  - RA and Self Pay – Thursday, 8/29 (1<sup>st</sup> day of classes).
- If you are a Teaching Assistant:
  - You must turn in your fall class schedules to Priscilla by noon on Tuesday.
  - Prof. Lu uses this information to ensure your TA assignment does not conflict with your course schedule.
  - Assignments will be sent via email.

# Registration Requirements

## Master's (excluding Co-Term) and Doctoral:

- Full-time status 15 Credits maximum
- Full-time status minimum:
  - 9 credits for TA
  - 12 credits for RA and Self Pay

## Co-Terminal:

- Full-time status minimum is 12 credits.
- Maximum 21 credits if course load is predominately UG courses.
- Students should aim for 15 credits per semester, especially if taking graduate level courses.
- You must follow OGE requirements once the bachelor degree is completed.

# ADD/DROP Deadlines

- Add Deadline: September 13, 2019
- Drop Deadline: October 27, 2019
- Late Adds are not permitted. OGE will NOT approve.
- You cannot drop a course if it lowers your load below the minimum full-time requirements
- Aim to adhere to a 15 credit course load to avoid any registration problems.

# Mercer Distinguished Lectures

**Darrin Communications Center (DCC) 324**  
**Refreshments: 3:30 p.m., Lecture: 4:00 – 5:00 p.m.**  
**Fall 2019 Schedule:**

**HVAC System Control and Optimization**

Scott Bortoff, Mitsubishi Electric Research Laboratories  
Wednesday, September 25

**Topological Quantum Computing and Majorana Fermion**

Kang Wang, UCLA  
Wednesday, October 30

**Model-Based Design and Systems Engineering**

Hubertus Tummescheit, Modelon  
Wednesday, November 13

**Attendance is mandatory.**

# ECSE Doctoral Program

# ECSE Doctoral Degrees

- ◆ Doctor of Philosophy Degrees:
  - PhD in Electrical Engineering
  - PhD in Computer and Systems Engineering

# Doctor of Philosophy (PhD)

- ◆ Preparation for a Research Career (in Academia, Government, or Industry).
- ◆ Emphasis on depth in research area.
  1. Find a Research Advisor.
  2. Take DQE in 2<sup>nd</sup> semester if admitted with Masters, in 3<sup>rd</sup> semester if admitted with only BS.
  3. Form Doctoral Committee.
  4. Pass DCE in 4<sup>th</sup> semester of doctoral study.
  5. Complete Thesis and pass Defense, with appropriate Committee sign off.

# DQE

- ♦ The purpose of the DQE is to determine the potential that you will be able to complete the Doctoral requirements, including original and independent research of high quality.
- ♦ The DQE consists of 3 Parts:
  - 4 Oral Exams: 1 Basic Area Exam, 2 Major Area Exam, 1 Minor Area Exam.
  - Course Grades: Your grades in courses taken at RPI. This serves as the “written” part of the DQE.
  - Research Advisor’s Recommendation: Evaluation of your research-to-date.

# DQE Areas

- ♦ **Basic Exam:** One area from the Basic Group.
- ♦ **Major Exams:** One area from the Elective Group.
- ♦ **Minor Exam:** One area from the Basic or Elective Group, not previously selected.

## Basic Group

1. Physics
2. Mathematics
3. Computer Science

## Elective Group

4. Circuits and Electronics
5. Control
6. Communications
7. Plasmas & Electromagnetics
8. Microelectronics Technology and Design
9. Computer Systems
10. Computer Design
11. Image Analysis & Computer Vision
12. Electric Power Eng'g

# PhD continued

- ◆ More detail on DQE at Doctoral Program meeting next Wednesday, 9/4, 4pm, JEC 3117.
- ◆ The DQE is relevant today because you must register this week.
- ◆ You should consider if you need to take one course to help you prepare for the DQE.
- ◆ You must balance this vs. taking courses to prepare for research and not overloading yourself.
- ◆ 3 courses should be the max this semester if you have a TA or RA (the rest is thesis credits).

# PhD continued

- ◆ PhD should take about 3 years beyond a Masters or 4–5 years beyond a BS to complete.
- ◆ Maximum time period is
  - 5 yrs after MS/MEng,
  - Or 7 yrs after BS if no Masters,
  - This is RPI Policy (not ECSE).
  - Extensions can be granted, but discuss with us as early as possible.
- ◆ Academic Advisor = Research Advisor.

# Doctoral Requirements

## 72 Credit-Hour PhD Plan of Study (PoS)

- ◆ 48 credits beyond the Master's Degree
- ◆ A relevant Master's should be reflected in the 72-credit Doctoral PoS on one line worth 24 credits.
- ◆ It is counted as a 24-credit block at 6000-level in a 24-credit Doctoral PoS regardless of the actual number of credits earned in the Master's.
- ◆ Doctoral Dissertation Credits account for time spent on research: 12 credit minimum / 36 credit maximum.
- ◆ You will have more than 72 credits at the end.

# Doctoral Requirements continued

## 72 Credit-Hour PhD Plan of Study (PoS) continued

- ◆ Ratio of 6000-level to 4000-level Credits on 72-credit PoS must be 2 or greater.
- ◆ Maximum of 15 credits at 4000-level.
- ◆ Plan of Study (PoS) must be approved by your advisor, ECSE GPD, & Grad School.
  - After getting your advisor's signature, give to Priscilla in JEC 6009.
- ◆ Minimum 3.0 GPA on all PoS courses to graduate.
- ◆ You must also take at least one Math course.

# Doctoral Requirements continued

- ◆ Written Thesis & Defense, w/Committee Sign-Off
  - The heart of the PhD: Must contain a “substantial original contribution to knowledge.”
  - Proposal of research at Candidacy Exam (DCE) in front committee of 4 or more faculty.
  - Defense: Public presentation in front of committee. Must be open to anyone.

# Research Area Chairs

- ♦ AI and Machine Learning: Prof. Ali Tajer
- ♦ Communications and Computer Networking: Prof. Koushik Kar
- ♦ Computer Architecture and Hardware Systems: Prof. Tong Zhang
- ♦ Control, Robotics & Automation: Prof. Agung Julius
- ♦ Electronics & Photonics: Prof. Partha Dutta
- ♦ Image Sciences and Computer Vision: Prof. Richard Radke
- ♦ Power Electronics and Power Systems: Prof. Joe Chow

# Questions?

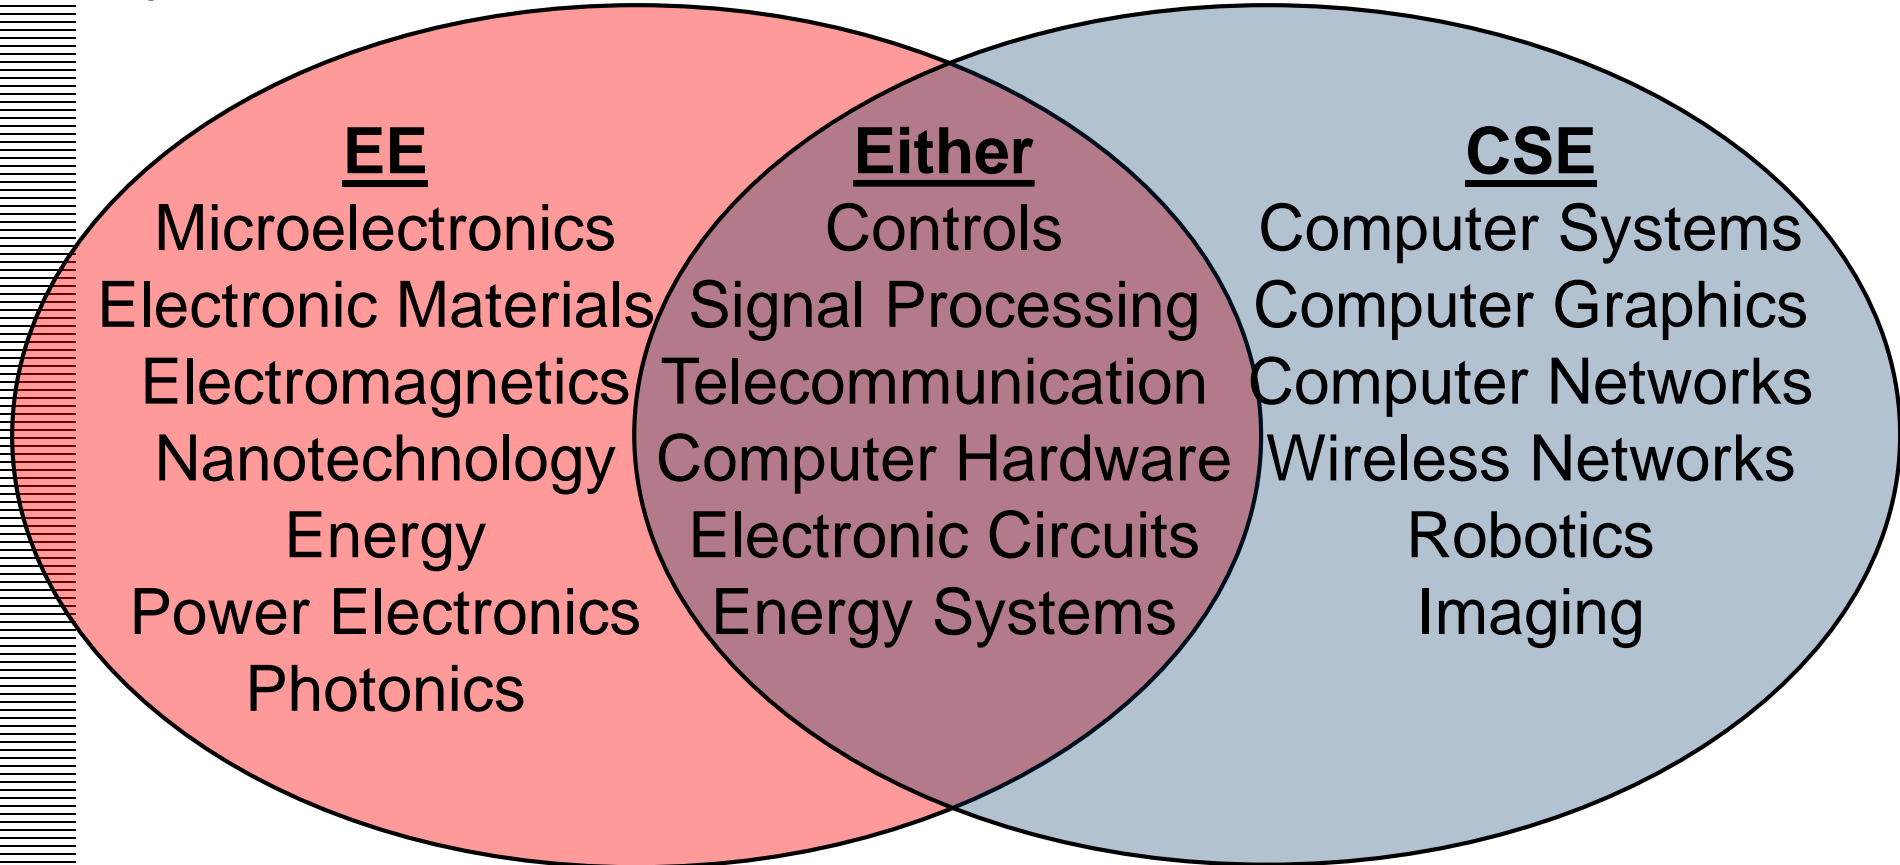

# ECSE Master's Programs

# ECSE Master's Degrees

- ◆ Master of Science (MS) with or without Thesis
  - MS in Electrical Engineering
  - MS in Computer and Systems Engineering
  - MEng in Electrical Engineering
  - MEng in Computer and Systems Engineering
- ◆ ME, MS w/ or w/o Thesis can be used for Co-Terminal, but MS w/o Thesis degree is most typical

# Differences Among Degrees

- ♦ w/ vs. w/o thesis matters a lot in PoS requirements.
- ♦ EE vs. CSE doesn't matter in PoS Requirements, just area of concentration/research:

# Master of Engineering

- ◆ Preparation for Professional Practice
- ◆ Semesters to complete: 2 possible w/ heavy load; 3 semesters more typical.
- ◆ 3-Course Technical Concentration.
- ◆ 2-Course Non-Technical Sequence.
  - MGMT/ECON/ courses encouraged.
- ◆ Max time period 2-1/2 yrs (Grad School Policy).
- ◆ Professional Master's Project an option but not typical (need a voluntary Advisor for this).
- ◆ Academic Advisor = an ECSE Faculty or GPD.

# Master of Science with Thesis

- ◆ Preparation for Research Career and/or a PhD
- ◆ Emphasis on depth in research area.
- ◆ 3 semesters to complete (recommended).
- ◆ Max time period 2.5 yrs (Grad School Policy).
- ◆ Master's Thesis required: Need 6 (or 9) credits of ECSE-6990 *MS Thesis* in your PoS.
- ◆ Must publicly present master's thesis research, with Committee (3 ECSE faculty) sign off (even if also pursuing a PhD).
- ◆ Academic Advisor = Research Advisor.

# Master of Science w/o Thesis

- ♦ New this year. Replaces MEng
- ♦ Does not focus on research.
- ♦ Semesters to complete: 2 possible w/ heavy load; 3 semesters more typical.
- ♦ Max time period 2.5 yrs (Grad School Policy).
- ♦ Professional / Master's Project an option but not typical (need a voluntary Advisor for this).
- ♦ Academic Advisor = an ECSE Faculty or GPD.

# Co-Terminal MEng

Identical to MEng, except:

- ♦ PoS must reflect completion by end of Year 5 (that is, 1 AY after your normal 4-Year BS).
- ♦ **ECSE strongly recommends at least 6 Master's PoS credits by end of Year 4!**
- ♦ Co-terminal students must complete all BS requirements and graduate within 8 semesters, at which point their status will change to graduate.
- ♦ Academic Advisor = Undergraduate Advisor.

# Co-Terminal MS w/o Thesis

Identical to MS w/o Thesis, except:

- ♦ PoS must reflect completion by end of Year 5 (that is, 1 AY after your normal 4-Year BS).
- ♦ **ECSE strongly recommends at least 6 Master's PoS credits by end of Year 4!**
- ♦ Co-terminal students must complete all BS requirements and graduate within 8 semesters, at which point their status will change to graduate.
- ♦ Academic Advisor = Undergraduate Advisor.

# Co-Terminal MS with thesis

Identical to MS, except:

- ◆ Need an existing Research Advisor, who fully endorses PoS Completion by end of Year 5 (1 AY after your normal 4-Year BS).
- ◆ **ECSE strongly recommends at least 6 Non-Thesis Master's PoS credits by end of Year 4!**
- ◆ Co-terminal students must complete all BS requirements and graduate within 8 semesters, at which point their status will change to graduate.
- ◆ Academic Advisor = Research Advisor.

# Masters Program Meeting

- ◆ Continue in JEC 3117, following this meeting (10.45am scheduled)
- ◆ There are more rules for these Master's degrees which affect your registration for this Fall semester and your plan of study.
- ◆ We will review these rules and go into detail on completing your Plan of Study, so that you can register correctly this week.

# Questions?
