Stay Informed on Who's Still Hiring

Candor

Candor.co is a website known for its resources and strategies in salary negotiation. However, due to COVID-19, Candor has developed a database on companies that are hiring, implemented a hiring freeze, or are reducing workforce staff in real time. This is useful information for when you are applying for internships, co-ops, or full time opportunities.

Parker-Dewey

Innovative companies across industries are using Micro-Internships to identify, connect, engage, and hire high potential college students and recent graduates. Micro-Internships are short-term, paid, professional assignments that are similar to those given to new hires or interns. These experiences offer valuable time to help you gain industrial experience, practice your skills, and update your resume.

Quality is more important than quantity:

This does not mean that you should apply to only 10 jobs/internships/co-ops. However, because of Applicant Tracking Systems (ATS), it is important to tailor your resume and cover letter to every job you apply to. It is better to apply to 50 jobs with applications that you have spent time on to tailor than 100 jobs where you may have applied by just clicking a button or submitting a general resume.

Tip: Create a Master Resume and include all of the skills, work experiences, volunteer experiences, certifications, etc. that you have. Then tailor it for every job by looking for keywords in the job description AND job responsibilities. The CCPD will be holding a Beat the Bots Workshop on May 13th at 4 pm - RSVP on JobLink! Don't worry if you can't make it -- we will be holding similar workshops throughout the summer!
